Assembly Instructions:

Tools required: (X) Allen Wrench,Wrench(Y),poker(Z) provided in package.

DO NOT FULLY TIGHTEN THE BOLTS BEFORE ASSEMBLING ALL OF THE PARTS

1. Assemble 3 x Legs (G) to Fire Bowl (D) with the 6 x Bolts (T1).
2. Assemble 1 x 1/4 Top Ring(C) to Fire Bowl(D) with 1xBolt(T2) 1x Bracket (E),1xWasher (U) and 1x Nut(V) slightly, Don't tighten.
3. Connect the second 1/4 Top Ring(C) and the hole of the assembled 1/4 Top Ring (C) , then assemble the second 1/4 top ring (C) to Fire Bowl (D) with 1x Bolt (T2) and 1xBracket(E) 1xWasher (U) and 1x Nut(V) slightly, don't tighten.
4. Repeat Step 3 to assembly the rest 1/4 Top Rings (C) to Fire bowl(D). Adjust the bracket horizontal, then tighten all the bolts.
5. Assemble Handle of Fire Screen (A) to the Screen Cap (B) with 1 Washer (U)and 1 nut (V). Then put the Screen Cap (B) on the Brackets (E).

Now the assembly is completed.

Outdoor Chimenea & Fire Pit User Guide

Users should exercise care and caution when using this product.
This product is for outdoor use and will become very hot during use.

Before Setting Up

This product should only be used outdoors. If setting up on a patio, the area should be cleared, and the roof should be open so any smoke emissions can escape easily.
Set up on a flat surface, away from anything that could pose a fire threat. As this item is low to the ground, always keep an eye on the fire.

Warning

1. DO NOT use if you suffer from heart and lung conditions because smoke inhalation may exacerbate existing conditions.
2. DO NOT move the product after it is alight.
3. DO NOT sit too close to the product.
4. DO NOT overfill the fire pit during use.
5. DO NOT use accelerants to light the fire.
6. DO NOT use in inclement weather.
7. Keep flammable liquids well away from the product as some flammable liquids can catch fire from the emitting heat.
8. Only handle the product with the poker. Once lit, do not touch the lid with bare hands or oven mitts. Only use the poker to lift the lid if you have to.
9. Keep a considerable distance away from the product. Keep kids and pets away from the product.
10. Adults should set up and maintain product.
11. Keep the set up area clear from any combustible materials.Dry leaves, paper, dry grass or pine needles can catch fire easily from the embers that come out of the product.
12. Once lit, approach the product with caution to avoid slipping and falling into it.

Considerations Before Use

Check with your fire department for information on burning bans and chimenea & fire pit regulations in your area. Chimenea & Fire pits can continue to remain hot and smoulder for a full 24 hours after the visible fire has been extinguished. Smouldering chimeneas or fire pits are a common cause of injuries and burns, especially for children.

The surface of this product will discolour when placed outdoors and from first use,due to the nature of the product and the heat/naked flames.

Choosing a Location For Setup

Chimeneas or Firepits need to be placed in a safe location. Do not place them near buildings,walls,outdoor furniture,inflatable pools or other flammable items. Nearby items could catch fire from heat or flames. Position on a non flammable surface, clear of overhanging objects.

Using The Chimeneas Or Fire Pits

The product is for outdoor use only,and will become very hot during use.

Using the wrong materials inside a fire pit can be dangerous.Make sure touse only coal or wood.
Do not use highly flammable items such as clothing, rags, paper towels, tissues or other items that could burn uncontrollably. Do not use petrol, white spirit, lighter fuel, alcohol or similar substances to light a fire. Never leave the product unattended.

Wind

Chimeneas or Fire pits should be protected from wind and not used when winds are high or gusty. Wind casuses the smoke and fire to blow around, which could spread burning embers.When using Chimeneas or Fire pits during light breezes, keep an eye on it to ensure no small embers escape.
Do not place Chimeneas or Fire pits near anything that could catch fire.

People & Pets

Supervised Children and Pets when the fire pit is in use.
Ensure that everyone near the Chimeneas or Fire pits understands it is an active fire and can produce smoke and embers. Do not allow children or animals to get close to Chimeneas or Fire pits to avoid smoke inhalation and burns.
The Chimeneas or Fire pits will get very hot and could burn someone if they get too close.

Extinguishing The Fire Properly

Chimeneas or Fire pits are dangerous if the fire is not extinguished properly. Do not extinguish the fire by pouring water into a hot fire bowl because this may cause distortion, rust or flaking paint. Fire should be allowed to die out on its own, or extinguished with a fire extinguisher. Its important to note that fire can continue to smoulder and embers remain hot even if there is no visible flame. Make sure to stay near the fire pit after the flame is out to check for burning embers or smoke, which could indicate that a live fire still exists. When in doubt, after the bowl has been allowed plenty of time to cool down, fill the inside of the fire pit with water to make sure all the fire is out. The fire pit could still be hot for hours after use.

Cleaning The Fire Pit

Once you are sure the fire is out and there is no danger of being burned, dispose of any remaining ash and fire fuel(coal or wood), then wipe the fire pit clean with a rag and water.
DO NOT USE A CHEMICAL BASED CLEANER as this may ignite a flame on next use.

Storage

It is best to keep the Chimeneas or Fire pits out of the rain. After you are sure the fire is completely extinguished, clean it out and store it away so it does not get wet from outdoor conditioins.It is recommended that rain cover protected chimeneas/fire pits from the rain when not in use.
