

# ICE TUB Instructions

RBCHTUB

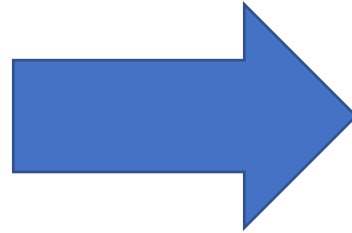

# 1. RBCHTUB

Package contains:

ice tub\*1

stairs\*1

Lid\*1

## 2.

The ground needs to be leveled  
before installation

3.

Fill the ice tub with 4/5 of the tap water

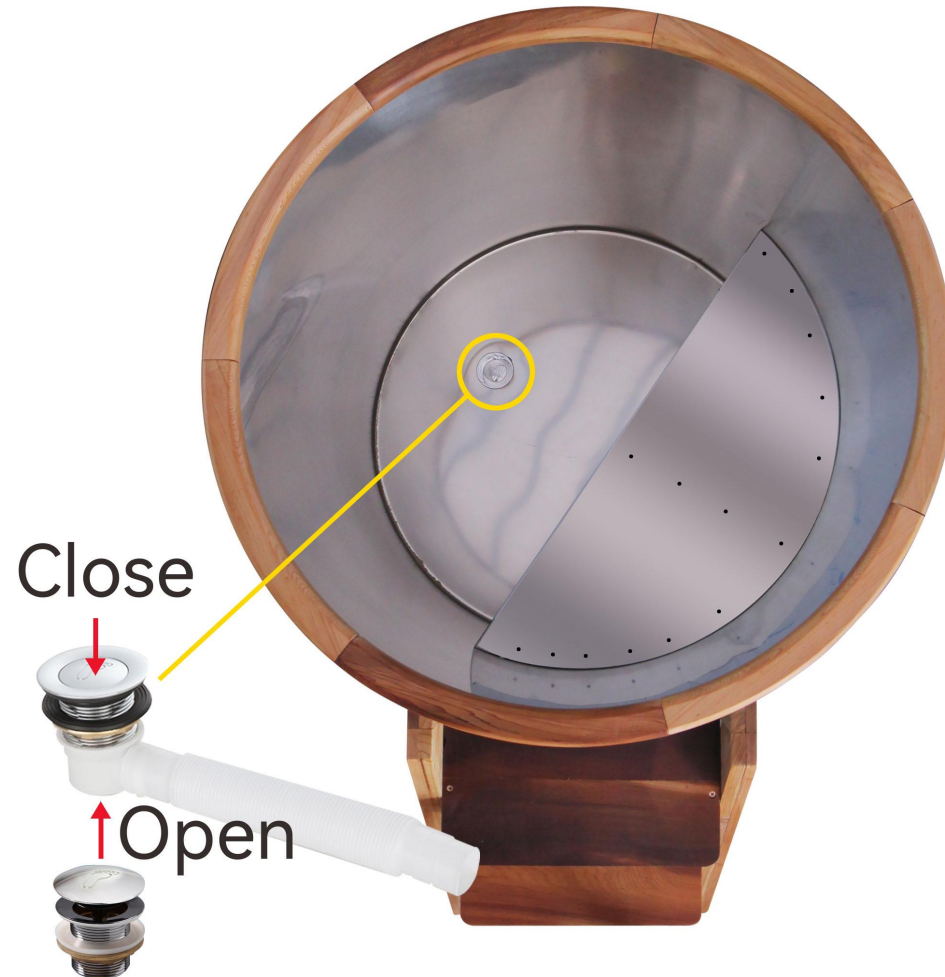

4.

Add Ice to the temperature you need. ( We add 25KG of ice to the water at 25c-it will drop to between 10c and 15C)

5. After using the ice bath, please step on the water outlet to drain the water, keep the bathtub dry, for the next use

6. When maintaining the Ice tub, please use a soft towel to wipe it. Do not use sharp objects to wipe it. also You can use stainless steel maintenance solution regularly for maintenance.

7. The PU cover is made of waterproof material and can be placed outdoors. Do not use other corrosive chemicals to smear it, and do not burn it with fire. If it will not be used for a long time, please put it in a protective bag and keep it dry
